Education

B.E in Computer Science And Engineering

2023 – Present

St Joseph Engineering College

CGPA: 9.17

Pre-University

2021 – 2023

Govinda Dasa PU college

Grade: 93.83

Technical Skills

Languages	C, C++, Python, Java, JavaScript, SQL
Frameworks	React, Tailwind CSS, Node.js, Express.js
Developer Tools	Git, GitHub, VS Code, Eclipse, Google Colab, Android Studio
Coursework	Data Structures And Algorithm, DBMS, Operating System, Object Oriented Programming

Soft Skills

- Leadership & Team Management
- Collaboration & Communication
- Problem Solving & Adaptability
- Time Management & Organization

Projects

Civic Care

March 2026

- Tech stack: **React, Node.js, Express.js, MongoDB, JWT, Multer.**
- Developed a **full-stack civic complaint platform** enabling citizens to report local issues, upload photo evidence, upvote community complaints, and track resolution status through a **role-based dashboard** for citizens and government admins.
- Designed an **automated multi-factor complaint prioritization engine** using urgency keywords, community support, and complaint age to automatically rank and surface critical civic issues via MongoDB aggregation pipeline.

Green Kisan

December 2025

- Tech Stack: **React, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Multer**
- Conducted **in-person interviews** with local farmers to **identify real usability needs**; Built a **full-stack marketplace** connecting farmers and industries to trade crop residue, with JWT-based role authentication and **local language UI support**
- Designed a booking workflow with MongoDB schemas for residue listings, orders, and notifications — including farmer-side accept/reject logic that auto-updates inventory quantity on confirmation

Samskruthi

November 2025

- Tech Stack: **React, Node.js, Express.js, MongoDB, JWT + bcrypt for auth, Google Gemini 2.0 Flash API.**
- **Gathered requirements** across two user roles (Teachers And Students) to design a **role-based dashboard**; Developed a **full-stack Educational Teaching Platform** with role-based dashboards for students and teachers, supporting doubt submission, AI-generated answers via Google Gemini, and a teacher acceptance workflow.
- Built a **secure REST API** with JWT authentication, bcrypt password hashing, and protected routes - integrated a floating **AI chatbot** (TutorBot) with conversation history powered by the **Gemini API**.

Leadership / Extracurricular Activities

- Served as **Student Coordinator** of the Arts Club, planned and organized club activities and events, onboarded junior students by introducing them to college culture and activities.
- Solved **300+ data structures and algorithms problems** and Participated in competitive programming and problem-solving contests on platforms such as **LeetCode, Codeforces and CodeChef**.
- Participated in a 24-hour Hackathon organized by Canara Engineering College, collaborating under time constraints to build and present a working solution.
